PROFESSIONAL SUMMARY

Full-stack developer with nearly 5 years of experience building business portals, ERP systems, AML/KYC compliance software and money exchange applications, plus property portals and lead-generation platforms for real estate and mortgage in Dubai. Works across the stack with Next.js, React, Angular and Vue.js (TypeScript); C#, ASP.NET Core Web API and SQL Server; and Docker, CI/CD and Microsoft Azure, taking features from Figma design to production.

CORE SKILLS

Front end: Next.js, React, Angular, Vue.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, PrimeNG, Bootstrap

Back end: C#, ASP.NET Core Web API, .NET, Entity Framework, REST APIs, Clean Architecture, unit testing

Data: Microsoft SQL Server, Azure SQL, database design, analytics and funnel reporting

Cloud & DevOps: Microsoft Azure (Container Apps, Blob Storage, Azure SQL), Docker, CI/CD pipelines, Git, GitHub

Domains: Fintech, AML transaction monitoring, KYC/EDD onboarding, money exchange, ERP, CRM, real estate, mortgage

Design & tools: Figma, UI/UX design, responsive and accessible design, design systems, Python scripting

PROFESSIONAL EXPERIENCE

Software Engineer – Full-Stack (Next.js, .NET & Azure)

Jan 2026 – Present

New Heights Real Estate LLC · Dubai, UAE

- Building the company's real estate portal for buying, selling and renting property: advanced search and filters, agent and enquiry management, and admin/CRM modules.
- Delivered the Filmfare Middle East event platform end to end: Next.js registration site, Clean Architecture ASP.NET Core Web API with unit tests and SQL Server, and a staff portal with role-based access, status workflow, automated emails and analytics dashboards.
- Built many campaign landing pages, launch sites for Emaar, Modon, Azizi and Ohana (Yas Residences) and a Google Ads promotions platform, with smart lead tracking that records each lead's campaign, source and time, routes it to the LeadRat CRM API and feeds funnel analytics.
- Built a role-based mortgage portal (mini-CRM) and the New Heights Financial Broker website with five mortgage calculators.
- Own DevOps for six apps: Docker, Azure Container Apps, CI/CD pipelines, Azure SQL and cost-optimised scale-to-zero hosting.

Software Developer – Angular & Vue.js (Money Exchange & AML/KYC)

Jan 2024 – Dec 2025

Circuit Computer · Dubai, UAE

- Developed and maintained the front end of a Transaction Monitoring System (TMS) for AML compliance, including case management screens for compliance teams (Angular, TypeScript, HTML5, CSS3, Bootstrap).
- Built and maintained money exchange applications in Angular and Vue.js with reusable, modular UI components.
- Built KYC onboarding and enhanced due diligence (EDD) workflow screens following a risk-based approach (RBA).
- Integrated front ends with RESTful APIs, working with backend, product and compliance teams to turn regulatory requirements into clear, usable workflows.
- Designed web and mobile interfaces in Figma and automated repetitive operational tasks with Python.

Software Engineer – Vue.js & UI/UX (Part-time, Remote)

Jun 2023 – Dec 2024

SlideX · United States

- Built responsive, mobile-first front ends for pet care and valet parking service apps with Vue.js 3 and Material UI 3.
- Designed user flows and interfaces in Figma and implemented them as pixel-accurate, accessible screens.
- Integrated RESTful APIs with the backend team and deployed production releases to Microsoft Azure.

Software Engineer – Angular & .NET (ERP Systems) Jan 2022 – Dec 2023

Swati Technologies · Pakistan

- Designed and developed ERP modules for Accounts, HR and E-Documents with Angular, TypeScript and PrimeNG on the front end and C#, ASP.NET Core Web API and SQL Server on the back end.
- Connected Angular screens to Web API endpoints and SQL Server data for database-driven business workflows.
- Built reusable, cross-browser components and optimised performance for high-use ERP screens.
- Turned functional and regulatory requirements from business teams into working features.

SELECTED LIVE WORK

- Filmfare Middle East registration platform – influencers.filmfaremiddleeast.com
- Yas Residences by Ohana launch platform – yas-residences.abu-dhabi-real-estate.ae
- New Heights Financial Broker website and calculators – newheightsfinancialbroker.com
- Promotions and lead-generation platform – promotions.newheightsrealestate.ae
- UI/UX portfolio (fintech, KYC and money transfer apps) – dribbble.com/kaynat-saeed

EDUCATION

BS Software Engineering – Virtual University of Pakistan 2016 – 2021
